Instructions:

1. Cut out the cover insert, on page 1, around the outer perimeter. Do not cut along the center.
2. Fold the cover insert in half, with the text on the outside.
3. Insert the cover insert in the CD case cover.
4. Cut out the tray insert, on page 2, around the outer perimeter.
5. The right-most long narrow title "tab", on the tray insert, is for CD case with a transparent tray. Remove this "tab" if the CD case has an opaque tray.
6. Fold the left and right long narrow title "tabs" to a 90 degree angle, away from the main tray cover portion. If the right-most "tab" is retained for a transparent tray, fold that "tab" 90 degrees again, away from the title "tab" next to it. The text should appear around the exterior of the folded cover, not the interior.
7. Remove the tray from the case.
8. Place the tray insert in the case.
9. Insert the tray, being careful that the title tabs are flat against the case.
10. Please appropriately discard this portion and the scrap bits of paper.

"The Eyes Have It" And "Tony And The Beetles"

Aliens have invaded the earth! Horrible one celled creatures disguised as normal human beings! Well, at least that is what it seems to the author.

Yes, The Eyes Have It is a whimsical story, making gentle fun of certain writing styles, but only a topflight science-fictionist like Philip Dick, we thought, could have written this story, in just this way.

Tony and the Beetles takes place far in the future when Earth's enormous colonial empire is well established but the question is, how long can it last? 10 year old Tony grows up fast when history catches up with the human race. A sobering look at human history .. and our probable future. Two very different stories but both entertaining.
